

Touch of Life Chiropractic East, P.C.

TERMS OF ACCEPTANCE

When a patient seeks chiropractic care and we accept a patient for such care, it is essential for both to be working towards the same objective.

Chiropractic has only one goal. It is important that each patient understand both the objective and the method that will be used to attain it. This will prevent any confusion or disappointment.

Vertebral Subluxation: a misalignment of one or more of the 24 vertebra in the spinal column which causes alteration of nerve function and interferences to the transmission of mental impulses, resulting in a lessening of the body's innate ability to express its maximum health potential.

Adjustment: An adjustment is the specific application of gentle forces to facilitate the body's correction of vertebral subluxation. Our chiropractic method of correction is by specific adjustments of the spine.

Health: A state of optimal physical, mental and social well being, not merely the absence of disease, sickness or symptoms.

We do not offer to diagnose or treat any disease or condition other than vertebral subluxation. However, if during the course of a chiropractic spinal examination, we encounter non-chiropractic or unusual findings, we will advise you. If you desire advice, diagnosis or treatment for those findings, we will recommend that you seek the services of another health care provider.

Regardless of what the disease is called, we do not offer to treat it. Nor do we offer advice regarding treatment prescribed by others. OUR PRACTICE OBJECTIVE is to eliminate interference to the expression of the body's innate wisdom. Our only method is specific adjusting to correct vertebral subluxations.

_____ has read and fully understand the above statements.
